no branch of christianity has grown more rapidly than pentecostalism especially in the southern hemisphere there are over 100 million pentecostals in africa in latin america pentecostalism now vies with catholicism for the soul of the continent and some of the largest pentecostal congregations in the world are in south korea in *to the ends of the earth* allan heaton anderson explores the historical and theological factors behind the phenomenal growth of global pentecostalism anderson argues that its spread is so dramatic because it is an ends of the earth movement pentecostals believe that they are called to be witnesses for jesus christ to the furthest reaches of the globe his wide ranging account examines such topics as the azusa street revival in los angeles the role of the first missionaries in china india and africa pentecostalism s incredible diversity due to its deep local roots and the central role of women in the movement he describes more recent developments such as the creation of new independent churches megachurches and the health and wealth gospel and he explores the increasing involvement of pentecostals in public and political affairs across the globe why is this movement so popular anderson points to such features as the emphasis on the spirit the born again experience incessant evangelism healing and deliverance cultural flexibility a place to feel at home religious continuity an egalitarian community and meeting material needs all of which contribute to pentecostalism s remarkable appeal exploring more than a century of history and ranging across most of the globe anderson illuminates the spectacular rise of global pentecostalism and shows how it changed the face of christianity worldwide

an introduction to pentecostalism that traces the religious movement s history throughout the twentieth century discussing its origins spread across the world theological aspects sociological influences and other related topics

in *to the ends of the earth* allan anderson offers a historical and theological examination of the growth of global pentecostalism examining such issues as revivalism healing gender worship and globalization anderson seeks to show how the growth of global pentecostalism is changing the face of christianity as a whole

pentecostals traditionally do not think theologically so much as do it practically this book will present pentecostal theology as well as

the particular style of pentecostal thinking and praxis that makes it different pentecostalism is not just distinctive because of its belief base but also because of the worldview it owns the latter is based on a certainty that a religion that does not work is not worth much consequently they look for expressions of life and vitality in their faith these dominate rather than an expression of the cerebral though this is changing nevertheless the sense of the immediate the god of the now not the distant past underlie how they do theology pentecostal theology tends to be seen through the eyes of people not theologians through the community not traditions though they have them through their faith and worship not ancient creeds it is a theology of the dynamic seen through the lens of experience it is a functional theology that exists to operate to incorporate an experiential dimension pentecostal theology does not operate as other theologies which often only detail a list of beliefs it does this but also and more importantly it explores them in the context of praxis thus this volume incorporates praxis as part of the enquiry relating to theology

this book comprising a sweeping range of well documented articles on pentecostal theology hermeneutics missiology and the social sciences provides for the student of pentecostals a window on contemporary pentecostal scholarship that discloses vigorous engagement with critical issues the editors have provided a resource that promises to stimulate further research and reflection william menzies chancellor asia pacific theological seminary baguio city philippines excerpts from respondents jose miguez bonino on changing paradigms an updating of pentecostal thinking on a whole spectrum of theological disciplines systematics missiology biblical studies history and praxis a wealth of information and reflection vinay samuel on global culture global pentecostalism can bring a new impetus to the movement for christian unity it has much to contribute to the shaping of a new 21st century definition for christian unity harvey cox on a postmodern world there was a time when pentecostals warned themselves and anyone else who would listen not to become entangled with and dependent on the things of the world pentecostals were suspicious of the passing fads of stylish clothing the latest hairdo and glitzy new consumer products they were also as it turns out rightly suspicious that the powerful new mass media could be a seductive lure tricking people into the empty values of the consumer market culture perhaps it is time for a rebirth of that ethic of simplicity that suspicion for the things for the world for which the early pentecostals were so famous

drawing upon the scholarship of eminent academics and practitioners in the field of pentecostal and charismatic studies this anthology puts into the public domain theological and sociological literature that posits contemporary thinking in key areas of british pentecostal and charismatic thought contributors include professor anne e dyer mattersey hall professor william k kay chester university professor david hilborn moorlands college dr r david muir university of roehampton and dr babatunde a adedibu redeemed christian bible college nigeria

this edited book offers an engaging portrait into a vital religious movement inside this southern africa country it tells the story of a community of faith that is often overlooked in the region the authors include leading scholars of religion theology and politics from botswana and zimbabwe the insights they present will help readers understand the place of pentecostal christianity in this land of many religions the chapters detail a history of the movement from its inception to the present chapters focus on specific pentecostal churches general doctrine of the movement and the movement s contribution to the country the writing is deeply informed and features deep historical theological and sociological analysis throughout readers will also learn about the socio political and economic relevance of the faith in zimbabwe as well as the theoretical and methodological implications raised by the pentecostalisation of society the volume will serve as a resource book both for teaching and for those doing research on various aspects of the zimbabwean society past present and future it will be a good resource for those in schools and university and college departments of religious studies theology history politics sociology social anthropology and related studies over and above academic and research readers the book will also be very useful to government policy makers non governmental organizations and civic societies who have the church as an important stakeholder

edith blumhofer uses the assemblies of god the largest classical pentecostal denomination in the world as a lens through which to view the changing nature of anglo pentecostalism in the united states

global pentecostalism and charismatic christianity in all its diversity is the fastest expanding religious movement in the world today

allan anderson a former pentecostal minister and a leading authority on global pentecostalism aims to make more visible the non western nature of pentecostalism without overlooking the importance of the movement emanating from north america offering an innovative interpretation of pentecostalism he takes seriously the contributions of the majority world to its development and concentrating on its history and theology reflects on the movement s development and significance throughout the world anderson also examines those theological issues that helped form a distinctive spirituality and how this relates to different peoples and their cultures finally anderson discusses the development of pentecostal and charismatic christianity in the different countries from its origins at the beginning of the twentieth century to its theological emphases in the present together with the impact of the processes of globalization

bruner has been both thorough and fair and has written a book that combines scholarly research with constructive commentary on the life and mission of the contemporary church

only a few decades past academia tended to scoff at the very idea of serious pentecostal theology today profound and variegated theological implications of this dynamic movement are the object of exploration and development across the entire spectrum of the christian theological corpus arguably an acute need has arisen for identification and evaluation of the pentecostal movement s original and ongoing theological essentials what is pentecostal theology really all about anyway this volume realizes that pentecostal theology is at its heart a working theology undergirding and energizing believers worship of god in prayer and praise in holy living and in witness to a personal experience of the risen lord and savior manifested in the continuing power of the holy spirit authentic implementation if not explicit articulation of fervent pentecostal theology often occurs in the vitality of local churches house fellowships and various mission settings in america and around the world birthed in the fires of revival movements essential pentecostalism including pentecostal theology continues to burn brightest wherever it is fueled most directly

grounded in primary source research this boldly revisionist book examines the doctrine of salvation in oneness pentecostalism united

pentecostal church from its origins through its several developmental stages the gradual rise of a literal interpretation of acts 2 3 8 eliminated a tradition of doctrinal diversity within oneness thought which regarded salvation as occurring at repentance prior to water and spirit baptism with this development a main link to the wider stream of evangelical christianity was severed the water and spirit theology resulted in a form of christianity which does not necessarily require the cross in any meaningful sense for salvation this study recovers the lost theological tradition associated with important figures such as howard a goss a d gurley w m greer c h taddon wynn t stairs earl jacques e p wickens john paterson and the pentecostal church incorporated combining traditional historical methodology and theological research with the principles of a broadly based oral history this study argues for a theological diversity within the history of oneness pentecostalism and in so doing bridges an important gap in the history and theology of the united pentecostal church

pentecostalism has become the fastest growing christian movement particularly outside europe and allan heaton anderson is one of the foremost scholars of this phenomenon his innovative interpretation of pentecostalism focuses on the serious contribution made by both western and majority world participants in its development in this second edition of his leading introductory course book anderson presents an updated global history of the movement which addresses significant events and changes in recent years and surveys important theoretical issues such as gender and society as well as politics and economics the book also offers a comprehensive explanation of the significance of charismatic christianity throughout the world plus its effect upon the globalisation of religion and its transformation in the present century this new edition will be an important resource for those studying pentecostalism charismatic christianity theology and sociology of religion

in our post 9 11 world where there is a growing religious fundamentalism and when both exclusion and easy tolerance are inadequate options this book offers a creative alternative arguing that pentecostalism has the potential to be a peaceful harbinger of plurality the potential lies in its spirituality a lively pneumatology and eschatology the eschatological spirit is seen as orientated towards the other crossing boundaries in redemptive embrace transcending exclusion and easy tolerance this book s non western

perspective and the empirical contextual study of singapore s multicultural and multi faith context are unique contributions to religion and society this is a book for students pastors teachers and theologians concerned for an approach to mission that is sensitive to their context who want to learn from a creative theological voice from what has been perhaps the largest religious movement in history and who see the immense potential in lively theology by christians of the chinese diaspora who can speak to the many millions of ethnic chinese christians this book will also appeal to those outside christianity who are interested in its attempts to engage with a complex multi ethnic and multi religious situation such as that in singapore

it was born a scant ninety five years ago in a rundown warehouse on azusa street in los angeles for days the religious revival service there went on and on and within a week the los angeles times was reporting on a weird babble coming from the building believers were speaking in tongues the way they did at the first pentecost recorded in the bible and a pentecostal movement was created that would by the start of the twenty first century attract over 400 million followers worldwide harvey cox has traveled the globe to visit and worship with pentecostal congregations on four continents and he has written a dynamic provocative history of this explosion of spirituality a movement that represents no less than a tidal change in what religion is and what it means to people

their works represent the full spectrum of the early pentecostal movement

without knowing the holy spirit s work in history we cannot possibly understand what he is doing today much less prepare for what he will do in this third and final installment the reader will learn how charles parham founded the modern pentecostal baptism with speaking in tongues how evan roberts gained worldwide attention through the 1904 05 welsh revival and how william seymour spearheaded an international pentecostal movement from azusa street in los angeles in 1906 the reader will learn how pentecostalism spawned new denominations national and international ministries global renewal movements and inspired innovators to take modern revivalism to a whole new level then when pentecostalism penetrated american middle class protestantism many observers began speaking of a third force in christianity meanwhile revolutionary changes in the catholic church opened the door for the catholic

charismatic renewal then just as the charismatic movement was beginning to subside in america it went global as charismatic mega churches bible schools and television networks took the message of renewal to the world the twenty first century has witnessed a dramatic shift in christianity to the southern hemisphere fueled in part by the global rise of pentecostalism with many new movements on the horizon

this brief but comprehensive introduction to christian worldview helps readers understand the christian faith as the substance of spirit filled living and as a knowledge tradition stemming from the global pentecostal movement using beauty truth and goodness as organizing principles the authors delineate a christian worldview by tracing each category historically comparing and contrasting each with alternative christian expressions and constructing fresh takes on each as read through the lived pentecostal experience unlike other worldview books the authors approach emphasizes beauty relating to experience rather than truth involving knowledge acquisition that difference in emphasis flows naturally from the pentecostal perspective which has traditionally centered the experience of the spirit pentecostal christians will find this volume indispensable for thinking lucidly about their worldview from a renewal perspective

overwhelming evidence reveals contemporary christianity roots in pentecost the world is taking notice and realizing that the fastest growing segment in christianity has an undeniable history with a pattern and a rich deep foundation dating back to the new testament explore overwhelming evidence that reveals how the gifts of the holy spirit not only have existed in the centuries since the early apostles but have also survived the middle ages the politicized church of europe and have experienced a spectacular revival this century learn invaluable lessons from the experiences of courageous men and women who sought god and saw his power in their generation the reader of this volume will gain a greater appreciation for the work of the holy spirit in history and will experience a sharpened sense to discern what god is doing in the church today 2000 years of charismatic christianity offers convincing evidence that the modern pentecostal and charismatic movements are rooted in the two thousand year history of the church those who identify with these movements will be affirmed in the experience of the holy spirit and will gain a new respect and appreciation for

the movement of which they are a part those outside the pentecostal and charismatic movements will also benefit by reading this volume in that they will gain an understanding of this movement that harvard professor dr harvey cox says is reshaping religion in the 21st century

the pentecostal and charismatic movements showed astonishing growth in the twentieth century so as to arrive at a total that is said to include at least 400 million people worldwide the academic study of the pentecostal and charismatic movement has been gaining momentum in the last few years both as an element within contemporary religious studies and as a strand within the subject area of church history going back to the early church this student friendly text is essential reading for students of theology and religious studies taking second or third year modules in pentecostal studies it is also of great relevance to students of sociology of religion as well as cultural and historical studies of religion and religious movements in addition to a comprehensive and accessible introduction to the subject it offers useful resources such as suggestions for further reading questions for reflection and a glossary of technical terms

If you ally craving such a referred **Handbook Of Pentecostal Christianity Paperback** books that will allow you worth, get the no question best seller from us currently from several preferred authors.
