this book studies the influence of the regional comprehensive economic partnership rcep on the east asia region and the rest of the world from an international relations perspective analysing the history and negotiation process of rcep through a collection of written interviews from negotiators involved in the rcep this book helps readers understand the origins proceedings and characteristics of mega regional trade integration individual case studies analyse the rcep negotiations from the viewpoint of various states or economic blocs such as asean australia china japan the european union eu and the united states several chapters also illustrate the dynamism of the regional architecture in east asia concerning other regional movements including the trans pacific partnership tpp comprehensive and progressive tpp cptpp belt and road initiative and the newly launched indo pacific economic framework ipef in sum the chapters illustrate how rcep member countries and non member countries try to utilise maximise their national interests this book will interest researchers of international relations international politics international economics and international political economy as well as policymakers and negotiators responsible for future regional economic integration projects

adopting a distinctive structural political economy approach this book uniquely explains the blind spots of alternative political economy approaches to international aid and presents an original framework for evaluating likely reformers strength of commitment and potential alliances with donors

studies of the global political economy have rarely engaged with development in the caribbean the thought of its indigenous intellectuals or the non sovereign territories of the region matthew bishop compares the development of the independent english speaking islands of st lucia and st vincent and their non sovereign

french neighbours martinique and guadeloupe by explaining how distinctive patterns of british and french colonialism and decolonisation came to bear on them he investigates how very different patterns of development have subsequently ensued often with startling consequences in this era of globalization and crisis by engaging with the empirical reality of the caribbean his study sheds light on a range of wider debates relating to development indigenous thought post colonial sovereignty small states and the contemporary evolution of the global political economy

while there has been a huge expansion of the literature on turkish political economy and foreign policy in the last decade or so fewer studies have explored turkey s engagement with the changing global political economy since 2008 in a holistic manner against the backdrop of the debates on the rise of the global south and the crisis and decline of the us led liberal international order this book interrogates turkey s ambitions to increase its regional and global economic political and military footprint and the limitations thereof the volume explores turkey s economic and political relations with diverse regions and countries ranging from latin america to sub saharan africa post brexit britain to iran as well as rising powers india and china drawing upon various critical ipe ir approaches the book offers a critical perspective challenging conventional accounts which tend to draw upon and reproduce rigid dichotomies

a political economy of the middle east is the most comprehensive analysis of the political economy of development in the contemporary middle east over the past several decades examining the interaction of economic development processes state systems state policies and social actors in the middle east the fourth edition with new authors melani cammett and ishac diwan has been thoroughly revised with two new introductory chapters that provide an updated framework with which to understand and study the many changes in demography education labor markets urbanization water and agriculture and international labor migration in the recent years the new edition also includes a new chapter that charts the political economy of the gulf states and in particular the phenomenal growth of oil economies a new chapter on the growth of the private sector and its effects in the region a new chapter on the rise of crony capitalism and increased coverage of the changes in civil society and social movements in the region including an exploration of the causes dynamics consequences and aftermath of the arab uprisings

the european economic crisis has been ongoing since 2008 and while austerity has spread over the continent it has failed to revive economies the media have played an important ideological role in presenting the policies of economic and political elites in a favourable light even if the latter s aim has been to shift the burden of adjustment onto citizens this book explains how and why using a critical political economic perspective and focusing on the case of ireland throughout ireland is compared with contemporary and historical examples to contextualise the arguments made the book covers the housing bubble that led to the crash the rescue of financial institutions by the state the role of the european institutions and the international monetary fund austerity and the possibility of leaving the eurozone for europe s peripheral countries through a systematic analysis of ireland s main newspapers it is argued that the media reflect elite views and interests and downplay alternative policies that could lead to more progressive responses to the crisis

by looking at 20 reform efforts in ten oecd countries this report examines why some reforms are implemented and other languish

in many respects sismondi s thought was ahead of its time schumpeter credited him as the father of dynamic analysis in the modern sense he is also recognized by all as the pioneer of business cycle analysis until this book there had been no full translation of his major work in english this translation will illuminate the genesis of marxist ideology and some of the basic causes of its failures

mitchell analyses the extent to which the current political paradigm is capable of meeting the challenges of climate change she argues that unless there are fundamental changes to policy making it is unlikely that energy policies will be able to deliver sufficient change to enable a move to a sustainable energy economy

brings together leading international experts to provide an authoritative introduction to the major subject areas on undergraduate courses in global political economy each chapter makes use of learning aids such as summary boxes chronologies case studies web links and further reading

broadly viewing the global economy as a political competition that produces winners and losers international political economy holistically and accessibly introduces the field of ipe to students with limited background in political theory history and economics this text surveys major interests and institutions and examines how state and non state actors pursue wealth and power emphasizing fundamental economic concepts as well as the interplay between domestic and international politics international political economy not only explains how the global economy works it also encourages students to think critically about how economic policy is made in the context of globalization

investigates the complex relationship that alaska has with its most precious commodity oil and with the corporations that bring that oil to market this book explores the dynamic balance between the power of a subnational government and the ability of big oil to develop energy resources affect the state economy and influence state policies

this timely book brings fresh analysis to the important issue of trade policy reform in emerging markets the subject matter and its significance are comprehensively introduced with a review of developing country liberalization since the 1980s providing an analytical framework for the seven country case studies that follow the case studies australia brazil chile india malaysia new zealand and south africa cover a wide variety of political historical and economic issues but all make clear the important role that crisis or the threat of it plays in meaningful trade policy reform this is of particular relevance in the current global financial crisis these studies together with the conclusions which are drawn from them show how important the trade liberalization agenda remains in the 21st century written by a combination of both experts and practitioners this highly topical book will make productive reading for policy makers concerned with trade policy in developed and developing countries as well as scholars working in trade policy postgraduate students studying international business international relations economics politics and international law should not be without this book

master s thesis from the year 2025 in the subject politics region usa grade 1 3 free university of berlin john f kennedy institute language english abstract the dissertation aims to reveal the root causes of institutional inequality in the us higher education system with the collapse of the american dream as the realistic background this research raises the question how is inequality institutionally constructed maintained and exacerbated in a seemingly fair and widely expanded higher education system the study focuses on the student loan system a key node as an institutional turning point in the national transition from public funding to private debt it systematically examines its mechanisms in policy design ideological discourse and class reproduction in theory the dissertation defines inequality as a structural reproduction mechanism emphasizing that the joint action of power institutions and ideology forms it based on the 3i model ideas institutions interests and introducing lobbying and rent seeking theories an analytical model for understanding institutional bias and interest solidification is constructed in terms of methods the dissertation combines process tracking case study discourse analysis and logistic regression to conduct a multi level analysis of the federal government s student loan policy from 2010 to 2024 the study finds that inequality in the us higher education system is mainly reflected in four mechanisms exclusion of public participation ideological hegemony class differentiation and the institutional lock in effects together these mechanisms constitute a

structural encirclement of public resources by government and capital which conceals the true face of structural institutional inequality ultimately it points out that the inequality does not stem from the coincidental governance or policy failure instead it is the product of the inherent contradictions of the democratic capitalist system to break through the institutional dilemma the study suggests a political resistance normativity based on marx s concept of free and fully developed individuals and the reconstruction of political imagination

emphasizing both domestic and international politics as well as fundamental economic principles international political economy is the field s most accessible and holistic overview of the global economy while surveying key ipe theories economic principles institutions and processes the text explains how international competition raises social welfare but also creates winners and losers who influence the policies of governments and international institutions and ultimately the global economy book jacket
